

A 92.9/6: Pou 1-1(2-962)

HATCHERY PRODUCTION

February 1962

March 16, 1962

Chick Production

Commercial hatcheries produced 205,713,000 chicks during February--down 8 percent from February 1961. Production of broiler-type chicks totaled 165,512,000--down 6 percent from February last year. Eggs in incubators on March 1 indicate that the hatch of broiler-type chicks in March will be slightly less than in March 1961. Egg-type chicks production in February totaled 40,201,000--down 19 percent from the hatch in February 1961. Eggs in incubators on March 1 indicate that the March hatch will also be less than a year ago.

Poult Production

February poult production was considerably less than in February 1961. Compared with February 1961, heavy white breed poults produced totaled 2,009,000--down 25 percent. Other heavy breed poults produced (mostly broad breasted bronze) totaled 3,409,000--down 51 percent and light breed production at 519,000 was down 38 percent. The hatch of poult (all breeds) at 5,937,000 was down 43 percent. The cumulative hatch of turkey poult for the first two months of 1962 totaled 9,452,000--44 percent less than during this same period in 1961. Eggs in incubators on March 1, 1962 indicate that the hatch of poult (all breeds) will be considerably less than in March 1961.
